

## OUT DOOR CURRENT TRANSFORMERS

- **OIL IMMERSED VERSION**
- Upto 36 kV system
- Upto currents of 2000A
- Live and dead tank designs for 11 kV and Live tank design for 33 kV system
- Complete with enclosure, porcelain insulator of creepage suitable for polluted or heavily polluted conditions, first filling of oil, hot dip galvanized hardware

Model 4482 CW710

TYPE : VEO - 113 - 02

Model 4447 CW703

# Kappa

Current Technology

- **CAST RESIN VERSION**

- Low voltage CT s suitable for outdoor application
- MV upto 42 kV system
- High creepage, suitable for heavily polluted conditions
- Cast in toughened UV proof cyclo-aliphatic resins
- Can be offered in hydro-phobic versions, suitable for areas with heavy precipitation

Model KRI-I-OD

1.2/4/- kV

Model 4490 CW801 , 15/38/95 kV

Model 4580 CW803, 36/70/170 kV
